

## Bidder Qualification Criteria for Electro Optical System

1. It is mandatory for the all bidder to sign a Non-Disclosure Agreement (NDA) with MTPF that any information relating to the MTPF specification in full or part thereof will not be shared with any third party without prior, formal approval from MTPF. (The format for NDA is attached as an **Annexure B**).
2. The bidder must have capacity and capability to design, manufacture and installation of electro-optical system (consisting of day camera, thermal imager and laser range finder as a single unit). The bidder must have successfully supplied such systems to the Indian Defence Forces/DPSU /DRDO either as a standalone system for `the combat/ armoured vehicle application and has successfully integrated on a combat/ armoured vehicle with well established record. Bidder must submit relevant documents / copy of contract with performance or completion certificate as a proof of supply of electro-optical system to Indian defence forces/DPSU /DRDO.
3. Considering the complexity of the system and being a design & development project, the bidder must be the Indian company for the electro-optical system. The techno-commercial offer submitted through authorized dealer, authorized partner or authorized system house, or any other terminology used but carries the similar significance, shall be rejected without assigning any reason.
4. The bidder must possess a sound financial record. The company should be a profit-making company at least in three years out of the last five financial years. In this regard, the bidder must submit their financial statements in order to establish their claim. The min average turnover of the company in the last three financial years should not be less than Rs 2 Cr.
5. All bidders must submit clause-wise offer with respect to all technical parameters (Attached at **Annexure A**) and other terms and conditions. Notwithstanding anything mentioned in the technical offer, the statement and offer made in the "offer statement" with respect to technical & terms and conditions shall be firm and final.
6. The technical offers would be evaluated as per the offer statement submitted by the bidder.
