

TECHNICAL SPECIFICATIONS: RUBBER MATS FOR CYLINDER HANDLING AT LPG BOTTLING PLANT

- Size : **1 Mtr x 2 Mtr x 25 mm**
- Weight : **Each rubber mat must weigh at least 80 kg**
- Minimum Tensile Strength : **4.5 MPa**
- Specific Gravity : **1.6**
- Elongation : **300 %**
- Mat Colour : **Black**
- Rubber mat should be of High-Grade Material, High tensile strength, Flame Resistant, Water resistant, Chemical Resistant, All-weather construction for reliable performance in any climate, Non-slip surface providing superior traction, Oil resistant.
- **Required a third-party test certificate in compliance with tender standards.**
