Subject: Exemption on Make in India Products in GeM Bidding

Sir/Madam,

With reference to the procurement requirements under the **WiFi turnkey project of International Trainees Hostel at VAMNICOM** it is hereby submitted that certain specifications and technical parameters necessitate the inclusion of products that may not strictly fall under the "Make in India" classification. While we are committed to the principles of promoting indigenous production, there are practical limitations that warrant this request.

Our analysis indicates that the required products, owing to their advanced technology or specialized features, are not currently manufactured or readily available under the "Make in India" initiative. Procuring such items locally may lead to delays, cost escalations, or compromises in quality, thereby adversely impacting the overall project execution.

In light of the above, we kindly request an exemption from the mandatory preference for Make in India products in this specific GeM bidding process. We assure you that due diligence will be conducted to ensure fair competition, and only the best quality products meeting our requirements will be procured.

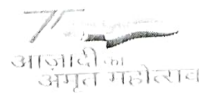

We hope for your kind consideration and approval of this request. Should you require any further information or documentation, we shall be happy to provide the same at the earliest.

Thanking you.

Yours faithfully,

Prof. S. Ghosh

Registrar, VAMNICOM
