Mines Act. Payment of Wages Act, Motor Vehicle Act, Workmen's Compensation Act, etc. and shall be fully responsible and liable for due observance of the same. The company shall have no responsibility/liability whatsoever on these accounts and the contractor shall fully indemnify the Company against any claim/dispute.

42. The contractor may request offline for change of vehicles to be deployed by him at any time at his option as follows:

The contractor may deploy any other vehicle(s) of same class owned by him subsequently or hired subsequently through a hiring agreement, of the same or lower age than the originally offered vehicle(s).

Moreover, such requests will be considered by the department on the merit of the individual case. In case, the request for change of vehicle/s is not accepted by the department then the bidder must deploy the originally offered vehicle/s.

43. **Legal Status of the bidder:** Bidder need to submit any one of the following documents at the time of bidding:

1. Affidavit or any other document to prove proprietorship/individual status of the bidder.
2. Partnership deed containing name of partners.
3. Memorandum & Article of Association with certificate of incorporation containing name of bidder

44. **Application of Price Variation Clause (if applicable):**

44.1 Escalation/De-escalation for Labour: The amount paid to the contractor for the work done shall be adjusted for increase or decrease in the cost of labour and the cost shall be calculated quarterly in accordance with the following formula:

$$V_L = W \times \frac{A}{100} \times \frac{L - L_0}{L_0}$$

Where:

V_L = Variation in labour cost i.e., increase or decrease in the amount in rupees to be paid or recovered.

W = Value of work done during the period under reckoning to which the escalation/de-escalation relates as indicated in clause-44.11.

A = Component of Labour expressed as percentage of total value of work is **47.97**.

L_0 = Minimum wages for unskilled workers payable as per the Minimum Wages Act/Rules of the State or Central Govt., whichever is more, applicable to the place of work as on the last date stipulated for receipt of the price bids or revised price bids, whichever is later.

L = Revised minimum wages of unskilled workers corresponding to L_0 during the period to which the escalation/de-escalation relates.

44.11 While calculating the value of "W" the following may be noted : The cost on which the escalation will be payable shall be reckoned as 85 % of the cost of work as per the bills to which escalation relates, and from this amount the value of materials supplied or services rendered at the prescribed charges under the relevant provisions of the contract, and proposed to be recovered in the particular bill, shall be deducted before the amount of compensation for escalation or de-escalation is worked out. In the case of materials brought to site for which any secured advance is included in the bill, the full value of such materials as assessed by the Engineer in Charge (and not the reduced amount for which secured advance has been paid) shall be included in the cost of work done for operation of this clause. Similarly, when such materials are incorporated in the work and the secured advance is deducted from the bill, the full-assessed v

alue of the materials originally considered for operation of this clause should be deducted from the cost of the work shown in the bill, running or final. Further the cost of the work shall not include any work for which payment is made at prevailing market rates.

44.12 In the event wages of labour required for execution of the work decreases, there shall be downward adjustment of the cost of work so that wages of labour shall be deductible from the cost of work under this contract and in this regard the formulae herein before stated under this clause shall mutatis/mutandis apply. No such adjustment for the increase / decrease in material price and/ or wages of labour before mentioned would be made in case of contracts in which the stipulated period of completion of the work is six (6) months or less.

44.2 PAYMENT OF PRICE VARIATION ON PETROL/ DIESEL : If the prices of Petrol/ Diesel increase or decrease, the contractor shall be compensated for such increase or recoveries shall be made from the dues of the contractor for such decrease as per provisions detailed below and the amount of the contract shall accordingly be varied, subject to the condition that such compensation for variation in prices shall be available only for the work done during the stipulated period of the contract including such period for which the contract is validly extended under the provisions of the contract without any penal action. If the contract is to be extended beyond the stipulated period for completion of the work due to a fault on the part of the contractor, escalation on prices should not be allowed further if not provided otherwise in the accepted contract. Such compensation for variation in the prices when due shall be worked out based on the following provisions:

44.21: The base price of petrol/diesel for working out such price variation (escalation/de-escalation) shall be the price of petrol/ HSD (High Speed Diesel) specified in the tender notice.

44.22: Bench marking of price variation on account of petrol/ diesel will be done based on price of the petrol/diesel of the retail outlet of IOC/BP (PSUs), nearest to the worksite and the price variation will be admissible on simple average of petrol/ diesel rate (nearest to the worksite) of the period considered for price variation.

44.23: Price Variation on Petrol/ Diesel: The amount paid to the contractor for the work done shall be adjusted for increase or decrease in the cost of petrol/diesel and the cost shall be calculated in accordance with the following formula:

$$V_f = K \times \frac{1}{B} \times (F - F_o)$$

V_f = Variation in Petrol/Diesel cost i.e., increase or decrease in the amount in rupees to be paid or recovered.

K = Actual KM run of the vehicle on that period considered for price variation.

B = Mileage of the vehicle (Km/litre) as specified in the tender notice.

F = Simple average of petrol/ diesel rate (nearest to the work site) of the period considered for price variation.

F_o = Base price of petrol/diesel, applicable to the place of work as taken in the approved estimate which is equals to **94.07**.

44.3 Application of Price Variation Clause during extended period of Contracts.

The Price Variation Clause as stated above will be applied for extended time frame of a contract by the principle stated as under:

- i) Normally, if and when it is understood that a contract is not going to be completed within the scheduled time period, the contract is kept operative by extending the time of completion provisionally. During this provisional extended period, the operation of the Price Variation Clause will remain suspended.
- ii) If and when it is decided at the end of the successful completion of the work that the delay was due to causes not attributable to the contractor, then the Price Variation Clause will be revived and applied as if the scheduled date of completion has been shifted to the approved extended date.
- iii) If it is decided at the end of successful completion of the work that the delay was due to the fault of the contractor, then the Price Variation Clause will not be revived for the purpose of escalation but shall be revived and applied for the purpose of de-escalation and no further payment will be made to the contractor on account of any escalation during this period but recovery shall be made for de-escalation, if any. Additionally, the Clause related to Compensation for delay will be applied.

No payment will be made by applying **"FROZEN INDICES"** under any circumstances.

If the wages of labour required for execution of the work increase or decrease, the contract or shall be compensated for such increase or recoveries will be made from the bills for such decrease, as per provisions detailed hereafter:

a) The amount of the contract shall accordingly be varied subject to the condition that such compensation for escalation/ de-escalation in price shall be available only for the work done during the stipulated period of the contract including such period for which the contract is validly extended under the provisions of the contract without any penal action. The Price Variation Clause shall not be applicable for works for which stipulated period of completion is six months or less.

b) The base date for working out such escalation/de-escalation shall be the last date on which the bids (inclusive of price part) or revised price bids (inclusive of revised offer) were stipulated to be received.

c) The compensation for escalation or recoveries to be made shall be worked out at quarterly intervals and shall be with respect to the cost of work done during the previous three months. The first such payment will be made at the end of three months after the month (excluding) in which the tender was accepted and thereafter at three months' interval.

45. When the period fixed for the completion of the contract is about to expire, the question of extension of the contract may be considered at the instance of the Contractor or the Department or of both. The extension will have to be by party's agreement, express or implied.

The extension of contract will be at the existing rate or the rate finalized in the next tender, whichever is lower.

46. Termination, Cancellation, Suspension and Foreclosure of the Contract:

(A) The company shall, in addition to other remedial steps to be taken as provided in the conditions of contract be entitled to cancel the contract in full or in part, and whether the date of completion has or has not elapsed, by notice in writing if the contractor:-

- a) makes default in proceeding with the works with due diligence and continues to do so even after a notice in writing from the Engineer-in-Charge, then on the expiry of the period as specified in the notice

Or

b) commits default/breach in complying with any of the terms and conditions of the contract and does not remedy it or fails to take effective steps for the remedy to the satisfaction of the Engineer-in-Charge, then on the expiry of the period as may be specified by the Engineer-in-Charge in a notice in writing.

Or

c) obtains a contract with the company as a result of ring tendering or other non-bonafide methods of competitive tendering

Or

d) shall offer or give or agree to give any person in the service of the company or to any other person on his behalf any gift or consideration of any kind as an inducement or reward for act/acts of favour in relation to the obtaining or execution of this or any other contract for his company.

Or

e) fails to complete the work or items of work with individual dates of completion, on or before the date/dates of completion or as extended by the company, then on the expiry of the period as may be specified by the Engineer-in-Charge in a notice in writing.

Or

f) transfers, sublets, assigns the entire work or any portion thereof without the prior approval in writing from the Engineer-in-Charge. The Engineer-in-Charge may by giving a written notice, cancel the whole contract or portion of it in default.

(B) The contract shall also stand terminated under any of the following circumstances:

a) If the contractor being an individual in the case of proprietary concern or in the case of a partnership firm any of its partners is declared insolvent under the provisions of Insolvency Act for the time being in force, or makes any conveyance or assignment of his effects or composition or arrangement for the benefit of his creditors amounting to proceedings for liquidation or composition under any Insolvency Act.
